

MAY MODIFY
INDIAN TREATIESPresident Taft Likely to Yield
to Pressure.

SITUATION VERY INTERESTING

That in the Indian Country in Minnesota Has Excited More Interest in Washington Than Any Question of Recent Years—States' Rights Are Involved in the Matter.

Washington, Jan. 7.—No question of states' rights brought up in recent years has excited more interest in Washington than that involved in the effort of the federal government to prohibit the liquor traffic within the boundaries of Minnesota under the authority of treaties negotiated with Indian tribes. It is already apparent that if the Minnesota liquor situation is taken up in congress that the fight will hinge on the question of states' rights, with the issue of temperance completely subordinated.

Uncle Sam did not willingly take up the task of driving the demon rum out of the state of Minnesota. He was forced to do so by persons familiar with the treaty law and in hearty sympathy with the countrywide movement to prevent, if possible, but to restrict at all hazards, the distribution and sale of liquor in the various states and between the states. Minnesota lawyers in congress, the legal experts of the department of justice and the department of the interior, and President Taft himself, who is recognized as a good lawyer, agree that the order of Secretary Ballinger prohibiting the transportation and sale of liquor in the Indian country of the state is sound in law. Mr. Ballinger's order, as is well known, was issued in conformity with the prohibition clauses contained in six treaties, one negotiated with the Sioux and the others negotiated with the Chippewas.

Sharp Issue Taken.

Sharp issue is taken here with the contention made by persons in the state that Minnesota's admission to the Union abrogated the treaties under discussion insofar as the operation of such treaties might conflict with state sovereignty. The preponderance of legal opinion expressed on this point is that the change in sovereignty in no wise modified the force of the treaties, as it is contended that the treaty law runs with the land and is not affected by a change in the occupancy of the land. Therefore, it is argued, the treaty law remains in full force and effect until the treaties are abrogated or amended by the president or congress, as the case may be, or overturned by the courts.

While lawyers here hold that the Ballinger order is sound in law they have expressed the opinion that in all probability it would not again stand the test of judicial procedure. They point out that the treaty law was made to fit conditions that no longer obtain. They insist that the provision for abrogation in the discretion of congress or the president makes it clear that it was not contemplated that the treaties should be operative after the Indian country had been settled by white men and the Indians had for all practical purposes departed. They express the belief further that the courts would hold that the absence of time limitation in the treaties was against public policy. In this connection attention is directed to the fact that nowadays congress inserts in every bill authorizing a cession of Indian lands a provision limiting the application of the prohibition clause to a period of twenty-five years.

NO SENSATION IS EXPECTED

Story From Fargo Does Not Receive Credence.

Bismarck, N. D., Jan. 7.—The Fargo Forum came out with a scare head saying, "An official sensation threatened at Bismarck," stating that great excitement prevailed at the capitol building and that various state officers were sitting on the lid to prevent the publication of exposures which have been threatened and that "what promises to be the biggest scandal since statehood" is about to be sprung.

No names are mentioned in the dispatch purported to be sent out from here, and no mention given as to who is concerned. Secretary of State Norton, who is a member of the state board of auditors, was seen and asked about the report that one of the state officers was under suspicion and authorized the following interview: "You can quote me as saying there are no charges pending or in contemplation against any of the state officers with the exception of one office where there is interest due on fees collected and not turned over to the treasurer at the time prescribed by law."

Tammany Hall on Fire Again.

New York, Jan. 7.—Another fire in Tammany Hall, the third within as many days, laid bare some of the precautions taken in the renovation thirty-five years ago. Workmen noticed smoke filtering from cracks in the floor and, tearing out the heavy planking, found a macerated cork lining, put in to deaden sound. The fire was put out with trifling damage.

Just as Good.

"Did he leave footprints on the sands of time?" "No, but they took his thumb prints."—Judge.

KATHERINE ELKINS.

May Now Become Wife of
the Duke of the Abruzzi.

MISS ELKINS NOW MAY WED

Likely to Become the Bride of the
Duke of the Abruzzi.

Rome, Jan. 7.—That the death of United States Senator S. B. Elkins will probably result in the marriage of his daughter, Miss Katherine, and the Duke of the Abruzzi, is the opinion of the Italian press.

YOUNG BANDITS
ARE CAPTUREDTaken Into Custody by Police
of Duluth.

Duluth, Jan. 7.—After a chase of several hours, William Muzzard and Algot Johnson, who held up and robbed the Hotel McKay of this city and after being arrested for the robbery shot and killed Patrolman Chesmore, were captured at Isaac Brown's logging camp, eighteen miles north of here, by the Duluth police.

Chief of Police C. H. Troyer and Sheriff Meinig believe the boys are the ones wanted.

Johnson's mother lives at Virginia, where the boy came from in October.

FOR DEMONSTRATION FARMS

Big Sum Asked of North Dakota Leg-
islature.

Bismarck, N. D., Jan. 7.—Eighteen thousand dollars is the amount asked for the government experiment station at Fargo, for demonstration farms and to furnish samples of seed grain and otherwise co-operating with farmers, for publishing reports and bulletins, for analysis of fertilizers and stock foods, for compliance with the provisions of the state pure paint law, Paris green and formaldehyde laws and for making other experiments, in senate bill No. 1, introduced by Senator Judson La Moure of Pembina county.

The appropriation, it is provided, is to be an annual one, payable in quarters each year. The present twenty-three demonstration farms are to be continued and the law provides not less than six, nor more than twelve, new farms of that nature shall be established in counties not now having such farms, providing that the director of the station shall have the power of locating an additional farm in a county containing more than fifty townships.

Each demonstration farm hereafter located, according to the bill, shall not be more than three miles from a railway station, where at least one passenger train stops each way each day, and to land that shall have been leased to the station for a period of not less than ten years. The present demonstration farms in the state are located at Sanborn, Bismarck, New Salem, Beach, Carrington, Flaxton, Page, Bathgate, Larimore, Lakota, Grandville, Ross, Jamestown, Oakes, Dawson, Hazelton, Washburn, Portland Junction, Starkweather, Rugby, Mohall, Hoople and Wahpeton. This bill provides for an increase of \$6,000 over the appropriation bill passed two years ago.

Printing Concern Burned Out.

Minneapolis, Jan. 7.—Fire originating in the basement of the Jensen Printing company and followed by a gasoline explosion spread with lightning-like rapidity, causing a property loss approximating \$30,000 and rendering thirty people homeless. This, with three other alarms occurring while the General Electric fire was raging, kept the fire department busy.

Survives Assassin's Bullet.

Yankton, S. D., Jan. 7.—Daniel Courtney, the farmer shot by George Rossette, who was himself killed while resisting arrest, is on the road to recovery and almost out of danger, after being in a critical condition ever since the sensational shooting that occupied the attention of the neighborhood a month ago.

Spiced Cake.

When making spiced cakes always sift the spices with the flour. They will be more evenly distributed.

NORTH POLE IS
OLD STORY NOWUnless Congress Honors Peary
Soon It Will Be Too Late.

REASON FOR LIQUOR PERMITS

Government Issues Them Solely to
Raise Revenue and Without Desire
to Suppress the Traffic—Massachu-
setts Congressmen Have Committee
Rooms Richly Adorned.

By ARTHUR W. DUNN.

Washington, Jan. 7.—[Special.]—If Captain Peary, discoverer of the north pole, gets any government recognition for his achievement he must get it soon or he will be forgotten. The glamour of the great feat has worn off, and no one seems very much interested in the subject.

No one wants to make use of the discovery, and there are no immigrants to the newly acquired region—Peary acquired it for the United States, you know—and immigration is what makes a new country and establishes the discoverer on a high pedestal. The north pole is not of much consequence even to the scientific world.

The Why of Liquor Permits.

In every congress an effort is made to pass legislation forbidding the officers of the United States to issue licenses to sell liquor in prohibition states. Senator Owen of Oklahoma has introduced such a bill, and it has gone to that "looming of the capulets," the judiciary committee.

There is a grave question whether the United States can refuse to issue permits—for they are permits rather than licenses—and then prosecute persons who have not taken out such permits. It is the theory of the prohibitionists that if the United States did not issue permits to sell liquor in prohibition states the government would be as relentless in its pursuit of those who sold without permits as it is in sections where permits are given to all who ask and pay.

The government prosecutes because it needs the money, not because it desires to suppress the traffic.

A Nautical Sharp.

Congressman Sharp of Ohio was able to tell a great many members of the house something they did not know. The discussion was about certain instruments used in the naval hydrographic office, and the question arose as to what a micrometer was. It turned out to be something very useful in locating distant stars and suns which establish time.

Then the interesting discovery was made that the nautical almanac—a wonderful book, by the way—was published six months in advance of its date. "It could be published half a dozen years in advance," remarked Sharp, "for all it contains has been computed for years and years. Perhaps an occasional scientific discovery or more careful figuring will change a few things, but not often."

"Dr. Cook," interjected Congressman Langley of Kentucky, "found the nautical almanac very useful in preparing the history of his trip to the north pole."

Then the scientific features of the discussion came to an end.

Massachusetts Leads in Art.

It is only a coincidence that more art is found in the rooms of Massachusetts senators and representatives than in those of any other delegation. Senator Lodge occupies a room that was made for naval affairs and was decorated by an artist who was very fond of his wife, the result being that this lady, in every pose and allegory possible, looks down on one from ceilings and walls.

Then there are stirring battle scenes in several places, and altogether it is a loudly decorated room. As chairman of the committee on rules Senator Crane is surfeited with art, both in the way of pictures and statuary.

On the house side Congressman McCall, chairman of the library committee, has an assortment of sculpture and paintings which has been left for his inspection. Chairman Weeks of the postoffice committee fell heir to two rooms formerly occupied by the committee on agriculture and where an artist roamed and ranged half a century ago, painting all sorts of agricultural scenes. To these have been added postal pictures, the whole making a combination rare in the art world.

South Dakota Anomaly.

It is rather a peculiar political condition which South Dakota presents in congress. In the house there are two regular or stand pat representatives who were re-elected with large majorities. In the senate are two near-insurgents who seem to have no difficulty in holding the state legislature. Ordinarily it might be supposed that the progressives would be those elected directly by the people.

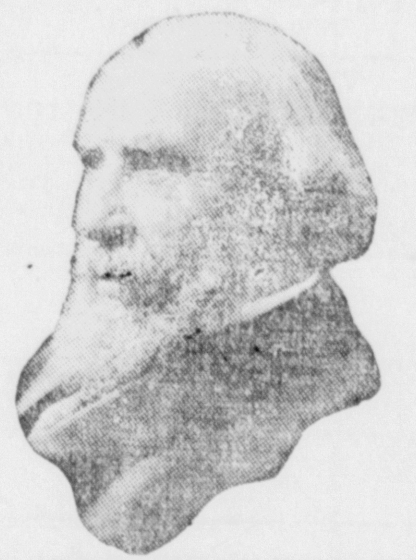

Lafe Young's Observation.

"A critic," said Senator Lafe Young of Iowa, "is a very useful person, but he never gets anywhere. He can point out faults, but he is never constructive. Such a man in the senate may accomplish a great deal of good, but he is not doing much in the way of advancement, for the critic rarely has a practical substitute for that which he pulls down."

Abdominal Surgery.

Abdominal surgery first was attempted in France in the fourteenth century.

JAMES J. HILL.

Railroad Magnate Will
Talk to North Dakotans.

HILL WILL BE A SPEAKER

Railroad Magnate to Talk to North
Dakotans.

Fargo, N. D., Jan. 7.—Farm experts of three states, officers of the American Society of Equity, James J. Hill of St. Paul and R. F. Yeakum, chairman of the board of directors of the St. Louis and San Francisco Railroad company, will be on the programme at the annual meeting of the Tri-State Grain Growers' association to be held at the agricultural college in this city Jan. 17 to 20.

All subjects bearing upon country life will be discussed by the speakers. Good roads will have a large part on the programme and agricultural education will be touched upon by speakers. The work of experiment stations will be explained and methods of betterment will be advanced. The relation of the railroads to the farmers will be the subject of addresses and the work of the Society of Equity will be outlined.

CRUMPACKER'S BILL
IS LIKELY TO PASSHouse Membership to Be Four
Hundred and Forty-three.

Washington, Jan. 7.—The apportionment bill introduced by Chairman Crumpacker fixes the membership of the house at 443. The bill was referred immediately to the census committee, where the entire subject will be taken up.

The apportionment of the membership of the house amongst the various states under the proposed arrangement will be as follows:

Alabama, 10; Arkansas, 7; California, 11; Colorado, 4; Connecticut, 5; Delaware, 1; Florida, 4; Georgia, 12; Idaho, 2; Illinois, 27; Indiana, 13; Iowa, 11; Kansas, 8; Kentucky, 11; Louisiana, 8; Maine, 4; Maryland, 6; Massachusetts, 16; Michigan, 13; Minnesota, 18; Mississippi, 8; Missouri, 18; Montana, 2; Nebraska, 6; Nevada, 1; New Hampshire, 2; New Jersey, 12; New York, 43; North Carolina, 10; North Dakota, 3; Ohio, 22; Oklahoma, 8; Oregon, 3; Pennsylvania, 36; Rhode Island, 3; South Carolina, 7; South Dakota, 3; Tennessee, 10; Texas, 18; Utah, 2; Vermont, 2; Virginia, 10; Washington, 5; West Virginia, 6; Wisconsin, 11; Wyoming, 1.

This represents an increase over the present membership of the house as follows:

Alabama, Colorado, Florida, Georgia, Idaho, Louisiana, Michigan, Minnesota, Montana, North Dakota, Ohio, Oregon, Rhode Island, South Dakota, Utah and West Virginia, 1 each; Illinois, Massachusetts, New Jersey, Texas and Washington, 2 each; California and Oklahoma, 3 each; Pennsylvania, 4; New York, 6.

A majority of the members of the committee believe this plan of apportionment will prevail.

Noted Civil Engineer Dead.

New York, Jan. 7.—Bromson Murray, a distinguished civil engineer in his day, who had charge of the surveys for the first and second lines of the Erie railroad in 1835-36 from New York to points far to the westward, is dead at his home here in his ninety-third year. He took charge of the first Erie survey, then the most stupendous engineering enterprise in America, shortly after his graduation from Columbia university.

ROAD AND EMPLOYEES BLAMED

Carelessness Cause of Disaster at
Cheney, Wash.

Spokane, Jan. 7.—Gross negligence, principally on the part of Conductor J. B. Le Rue and Rear brakeman F. C. Titman of Northern Pacific train No. 42, was the direct cause of the wreck Wednesday morning at Cheney, five people being killed and a number injured, when train No. 2, the North Coast limited, collided with the rear of train No. 42.

The above paragraph summarizes the decision of the state railroad commission. The findings state that proper precautions were not taken by the crew of No. 42, that the engineer on No. 2 did not have his train under control when he came in sight of the Cheney yards and that the Northern Pacific rules regarding the entrance of trains into railroad yards are misleading.

FIRE LOSS IN THE
MILL CITY HEAVY

TO BUILD NATIONAL TEMPLE

Big Meeting of Masons Planned at Al-
exandria, Va.

Washington, Jan. 7.—There is to be a Masonic event of more than usual significance at Alexandria, Va., five miles below this city, on the Potomac, on Feb. 22. The grand masters of all the grand lodges of the United States are to be in attendance—or have been invited—and the purpose of the gathering will be to set in motion a plan for the erection in Alexandria of a national Masonic temple, in commemoration of the fact that George Washington was the first master of one of the Alexandria lodges, and one of the prominent figures of Virginia Free Masonry of his time. One of the features of the meeting will be the conferring of the third degree by Masons from Michigan. The entire grand lodge from that state is to be present, and will be accompanied by many prominent members of the craft from that state, not members of the grand lodge official line. A special train has been chartered by them for the trip.

Alexandria-Washington lodge in the name of the lodge over which Washington presided. Its original name was simply Alexandria lodge, and the name Washington was added subsequently by way of distinction. Alexandria was Washington's home town, and Mount Vernon is only a few miles distant, down the Potomac. In the lodges are preserved as sacred relics many of the Masonic articles used by Washington in the discharge of his duties as master, and it is to build a secure home for these, as well as to raise a Masonic memorial to the father of his country, that the Masons of the nation are joining in the erection of a temple at Alexandria.

LA FOLLETTE SOUNDS ALARM

Says Wall Street Has Already Picked
the Delegates to 1912 Convention.

Madison, Wis., Jan. 7.—Senator La Follette fired the first gun in the contest to give the people the right to elect delegates to the national convention of 1912 by direct vote. In this week's issue of his magazine he declares that "Wall street has already selected the presidential candidates of both parties. There is just time to defeat the Wall street plan," he says. "Let the people organize and demand of every legislature the enactment of a primary law for the election of delegates for the national conventions by direct vote."

"Such a primary law will beat the Wall street game," he continues, "and nominate and elect a president for all the people of these United States."

CHINESE TENEMENT ON FIRE

Seven Dead and Many Imperiled by
Blaze in New York.

New York, Jan. 7.—Two Pell street tenement houses occupied by many sleeping Orientals are afire. According to a Chinaman who escaped, there were 120 men and women in the building, seven of whom have perished.

Editors Hold Meeting.

Staples, Minn., Jan. 7.—The fourth annual business meeting of the Northern Minnesota Editorial association opened here. A. M. Wells of Sauk Center, president of the association, read his annual address. Officers were elected as follows: President, Harold Knutson, Foley; secretary and treasurer, A. G. Rutledge.

GRAIN AND PROVISION PRICES

Minneapolis Wheat.

Minneapolis, Jan. 6.—Wheat—May, \$1.08½; July, \$1.08½@1.08½. On track—No. 1 hard, \$1.09½; No. 1 Northern, \$1.08½@1.09½; No. 2 Northern, \$1.05½@1.07½; No. 3 Northern, \$1.03½@1.06.

Duluth Wheat and Flax.

Duluth, Jan. 6.—Wheat—To arrive on track—No. 1 hard, \$1.09½; No. 1 Northern, \$1.08½; No. 2 Northern, \$1.05½@1.06½; May, \$1.10½@1.10½; July, \$1.10½. Flax—On track and to arrive, \$2.55½; May, \$2.59½.

St. Paul Live Stock.

St. Paul, Jan. 6.—Cattle—Good to choice steers, \$5.50@6.50; fair to good, \$4.50@5.50; good to choice cows and heifers, \$4.00@5.00; veals, \$6.25@7.25. Hogs—\$7.75@7.85. Sheep—Wethers, \$3.25@3.75; yearlings, \$4.00@5.00; spring lambs, \$4.75@6.25.

Chicago Grain and Provisions.

Chicago, Jan. 6.—Wheat—May, \$1.00½; July, 96½¢; Sept., 94½¢; Corn—May, 49½¢; July, 50½¢@50½¢; Sept., 51½¢. Oats—May, 34½¢@34½¢; July, 34½¢; Sept., 33½¢@33½¢. Pork—Jan., \$20.25; May, \$19.12½. Butter—Creameries, 22¢@29¢; dairies, 20¢@25¢. Eggs—19½¢@22¢. Poultry—Turkeys, 22¢; chickens, 12½¢@14¢; springs, 13½¢@14¢.

Chicago Live Stock.

Chicago, Jan. 6.—Cattle—Beeves, \$4.65@7.00; Texas steers, \$4.25@5.40; Western steers, \$4.30@6.00; stockers and feeders, \$3.75@5.80; cows and heifers, \$2.60@6.20; calves, \$7.00@9.25. Hogs—Light, \$7.75@8.05; mixed, \$7.75@8.10; heavy, \$7.75@8.10; rough, \$7.75@7.85; good to choice heavy, \$7.85@8.10; pigs, \$7.50@8.05. Sheep—Native, \$2.60@4.50; yearlings, \$4.75@6.80; lambs, \$4.75@6.55.

Expected That It Will Reach
About \$750,000.

BY ALMOST A MIRACLE

Firemen and the Employees of the
Power Plant of the General Electric
Company Escape Death in Fire That
Destroys Nearly a Million Dollars'
Worth of Property.

Minneapolis, Jan. 7.—That firemen and employees at the power plant of the General Electric company here escaped death in the disastrous blaze is considered little less than miraculous. There were four explosions following the breaking loose of 13,000 volts of electric current. The employees in the plant were caught unawares with the blue lightning-like flames playing about them as the hundreds of wires kept flashing so they could not see in addition to the black night which surrounded them as they made their way out of the building along the valley of the tail race. The latter in itself was a fatal trap inasmuch as a misstep meant certain death.

The firemen did not hesitate when they arrived on the scene, but knowing the deadly electric current was all about them, attacked the building with the lines of hose, in imminent danger of being electrocuted by the currents coming at them through the water they were throwing into the ruins.

When the department had reached the scene the building was burning at both ends. Inside the flashing blue light of the unused currents continued to play before the power was shut off. But a few moments after the department arrived the building was razed, being unable to withstand the continued explosions. The fight was a hard one and had the wind shifted the conflagration would have been general in the district.

Did Not Realize Danger.

Even the employees and firefighters did not realize the actual danger they were in as the former fought to get out and the latter to get at the flames, until electrical engineers explained what the mere touch of any wire or probably many pieces of apparatus would mean death to any one. The three men who were injured, Joseph Rhoades, John Rynski and A. L. Severson, are all reported not seriously hurt and it is expected they will be at their labors again in a few days.

In the city not only have electric lights and power been affected, but the telephone companies report some of their exchanges not working well. The Western Union and North American Telegraph companies are still using local "juice," but have regained their strength fairly well.

As the result of the fire it was announced the General Electric company would immediately begin the construction of a million dollar power plant, a "loop" station to be run in connection with the plant. A "loop" station will make it possible for the current from Taylors Falls to be switched immediately from the main station in case of another catastrophe. Without loss of time the electricity can be sent through the emergency station to the city.

According to Engineer Harris of the company, this plan should have been followed out before, but the company has been intent on improving the facilities at the plant on Main street in order that it would be equal to an emergency in case of anything went wrong at Taylors Falls.

The actual loss cannot be ascertained until the ruins cool sufficiently to allow an estimate of the salvage. Officials, however, fear the loss is total, amounting to about \$750,000. On this amount, insurance of \$578,000 is carried.

DEALERS ARE NOT WORRYING

Expect President to Issue Order in
Their Favor.

Moorhead, Minn., Jan. 7.—On the eve of the decree of President Taft in regard to the placing of the boundaries for the dry belt, into which liquor cannot be shipped, cities near the Indian territory are in a state of suspense.

It is presumed that the decision of President Taft in regard to the modification of the boundaries of the 1855 treaty will be made on Saturday. Local liquor dealers are not worrying any over the probable decision in the matter from the fact that this portion of the territory included in the old Indian treaties has been declared by Judge Amidon as not subject to the ruling of the old treaty.

An Economist.

"Of course," said Mr. Sirius Barker, "I want my daughter to have some sort of an artistic education. I think I'll have her study singing."

"Why not art or literature?"

"Art spoils canvas and paint, and literature wastes reams of paper. Singing merely produces a temporary disturbance of the atmosphere."—Washington Star.

The Indignant Coster.

"'Ere, missus; give over pinchin' them bananas. 'Ave a go at the coker-nuts instead.'—London sketch.

THE FARMERS' INSTITUTE

F. C. Peabody, of Merrifield, Offers a
Suggestion For the Coming
Farmers' Institute

F. C. Peabody, who owns a large
farm three miles east of Merrifield,
was in the city today. Mr. Peabody
is very much interested in the farmers
institute to be held in this city under
the auspices of the Commercial Club.
He suggests that the subjects to be
talked about should include dairying
and seed selection.

He has some blooded stock and
would be pleased to bring some down
in order to have the lecturer explain
in a better manner many features
relating to improved dairying. Mr.
Peabody also conferred with Carl
Zapffe, the new president of the Com-
mercial Club and some action will
probably be taken on his suggestions.

It is gratifying to note the interest
the farmers are taking in the com-
ing institute and The Dispatch will
gladly give space to suggestions and
ideas so as to make the coming meet-
ing one of real benefit to all con-
cerned.

LADU LEAVES PINE RIVER

Charles W. LaDu Forms a Law Part-
nership and Will Move to Min-
neapolis in the Near Future

The Pine River Sentinel says:
"Attorney and Mrs. Charles W. LaDu
will leave in a day or two for Min-
neapolis where they will make their
future home. Mr. LaDu having secured
a position as junior partner
of the law firm of Healy & White, of
that city. The new firm will be
known as Healy, White & LaDu, with
offices in the Guarantee Loan build-
ing.

"Mr. Healy has been city attorney
for Minneapolis for the past twelve
years, and Mr. White has been the
first assistant attorney for the past
six years. The taking in of Mr. La-
Du into this firm is a very flattering
mark of Charles' ability and his host
of friends here will wish him all suc-
cess in his new location. Mrs. LaDu
will be greatly missed socially and
otherwise in the village and the good
wishes of all go with her in her new
home."

SATURDAY, JANUARY 7, 1911

The passing of the Teddy bear is
said to be an indication of the wan-
ing popularity of our own Theodore.

It has been nearly a week now—
are you still on the water wagon, and
if not, how did you fall off in this
section of the country?

Most people have forgotten that a
census was taken some time ago—
isn't it nearly time this part of the
country was hearing from the count?

The Bemidji Pioneer is to have a
special correspondent at the state
capital during the session of the leg-
islature, the editor of that paper hav-
ing secured a committee clerkship at
\$5 per day.

Does the St. Cloud Journal-Press
go on the theory that if you pay your
small debts, the large ones will take
care of themselves, when it says
"Start the new year right by paying
your small bills?"

Milwaukee is to have a woman on
the police force which is a departure
from the usual custom. That
Wisconsin metropolis is famous for
many things besides that which one
blows the foam off.

Senator C. D. Johnson has fared
very well in committee assignments
and has a place on commerce and
trade, forestry and fire protection,
Indian affairs, logs and lumber, print-
ing, public health and pure food, re-
apportionment and taxes and tax
laws.

The wise merchant goes out after
business when trade is dull, and the
way to get it is by advertising. The
Dispatch offers the medium and its
daily and weekly editions cover this
section of Minnesota thoroughly. If
you want business these days it is
necessary to let the public know
what you have to offer in the way of
bargains.

As a result of the recent murder
in St. Cloud, which occurred at a
public dance, that city has decided
that in future dances of this char-
acter must pay a license and \$5 will
be collected by the city before the
dance starts. A policeman will be
stationed in the dance hall and if
the inclination is to start something
the officer will get busy. The po-
liceman will wear plain clothes when
attending these dances, presumably
that his presence will not be offensive
to those who participate in the fes-
tivities.

The Austin Herald says "over three
hundred newspapers have gone out
of business in Minnesota in the last
three years and the wonder is that
more of them have not quit. There
is no business in existence where so
much work is done for "the joy of
the working," and where so much
gratis service is expected. The news-
paper that becomes a sort of accom-
modation institution for a town, in-
stead of a business institution, is
bound to shut up shop sooner or
later, and the sooner the better for
the editor."

Senator James Boyle, of Eveleth,
has already been dubbed "The De-
mosthenes of the Northwest." When
some one called him that in the
senate chamber the first day of the
session the papers state that, "he
turned red and stammered something
unintelligible and backed up against
a desk and pawed the carpet with
one foot. Then he said it was a mis-
take and tried to look as if he didn't
know he could talk of "woody dells
and forests that turn brown," till
tears came to the eyes, or shake his
clenched fists to high heaven and
call on the "shades of Jupiter to look
down upon this awful situation."

The salary of the judge of pro-
bate of Wadena county is reduced
\$275 a year owing to the decrease
in population of that county as shown
by the census figures. The Pioneer-
Journal says: "The salaries of judges
of probate are based upon the popu-
lation of the different counties. Where
the population is between
6,000 and 9,000 the salary is \$725.00
a year, but with the falling off in
our population the salary will be re-
duced to \$725 per annum. There was
some doubt as to whether the loss
in population would affect Wadena
county in this regard, but the at-
torney general has given an opinion
to the effect that Judge Gores must
lose a slice of his yearly salary."

LOCAL NEWS NOTES

Ralph Rogers, of Aitkin, is in the
city.

Miss Anna Jones went to Walker
this afternoon.

Col. Freeman Thorp, of Hubert,
arrived this noon.

Judge C. W. Stanton, of Bemidji,
is in the city today.

Miss Amy Taylor, of Merrifield, is
visiting in the city.

Arthur Feierabend went to Merri-
field this afternoon.

E. B. Darling, of Deerwood, is in
the city on business.

Miss Elsie Evans went to Pequot
today to teach school.

Walter Ludlow, of Merrifield, was
a Brainerd visitor today.

W. S. Orne returned this noon from
a business trip to Pequot.

Miss Mildred Jones returned this
afternoon to her home in Sylvan.

Miss Jennie Sydnese has returned
from a short visit at Superior, Wis.

GO TO THE RESCUE

Don't Wait Till it's Too Late—Fol-
low the Example of a
Brainerd Citizen

Rescue the aching back.
If it keeps on aching, trouble comes
Backache is kidney ache.
If you neglect the kidney's warn-
ing, lookout for urinary trouble—di-
abetes.

This Brainerd citizen will show you
how to go to the rescue.

Thomas Sizeland, 827 S. Seventh
St., Brainerd, Minn., says: "About
two years ago I obtained a supply of
Doan's Kidney Pills from H. P.
Dun's drug store, as I was suffering
acutely from pains across my hips,
especially severe when I stooped or
got up after sitting. My kidneys
were disordered and their secretions
contained sediment. I also had dull,
headaches and dizzy spells and was
hardly able to attend to my work.
Before I had finished the contents of
one box of Doan's Kidney Pills, I
was relieved so greatly that I pub-
licly endorsed them. I can still
speak highly of this remedy and I
take pleasure in doing so."

For sale by all dealers. Price 50
cents. Foster-Milburn Co., Buffalo,

The Geo. F. Murphy Co.

STATE SANATORIUM AT WALKER, MINN.

The Method of Treating Tubercular Cases as Told by a Former Patient

DR. CAMP ON ADVISORY BOARD

The Dispatch is Indebted to "The Farmer," of St. Paul, for This Article and Pictures

The Dispatch is indebted to "The Farmer" for the following clear and comprehensive article on the method of treating tubercular cases at the state sanatorium at Walker. The pictures were kindly loaned by the same magazine. "The Farmer" is a journal of agriculture and is considered the standard farm paper of the northwest.

Brainerd is interested in this sanatorium for Dr. James L. Camp was instrumental in having the hospital established. He served as a member of the advisory board for many years.

There is being constructed at the present time a large addition which

shown how to take your own, which is handed in to the doctor. At the end of the first week, if you are not "running temperature, you are allowed to leave the main building and exercise around a little. A thorough examination is given each patient by Dr. Marley and his assistants.

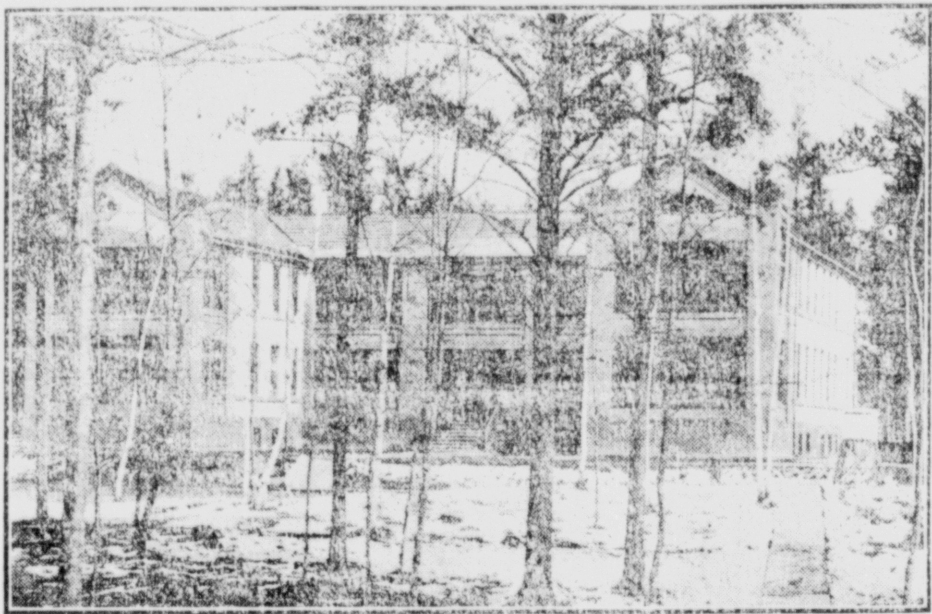

"The daily routine is as follows: Patients arise at 6:30. Shower baths are installed in the buildings and most of the patients indulge each day at this time. Breakfast is at 7:30.

After breakfast, beds are made and the chores are done. At 10:15 lunch is served, which consists of eggs and milk, and at 12:30 dinner. From 1:30 to 3:00 absolute quietness reigns. No reading or talking is allowed, rest being one of the most essential things in getting well. 3:10 brings lunch again; 5:45, supper; and at 9:00 all lights are out. The rule is, never stand when you can sit and never sit when you can lie down. When patients progress favorably they are advanced to a cottage as soon as vacancies occur.

"The charge at the state institution is one dollar per day. For those

expectation at all times the cuspidors provided for that purpose. Under no circumstances should a handkerchief be used for this purpose, and spitting upon the grounds, floors, or in basins, closets and sinks, is absolutely prohibited. For the health of all concerned this rule will be strictly enforced.

"Patients must be in bed before nine p. m., or such other time as may be appointed by the physician, at which time the lights are turned off. After that time absolute quiet must prevail in the wards and cottages. If any patient cannot sleep, he should not disturb others who wish to sleep.

THE MAIN BUILDING AT THE MINNESOTA STATE SANATORIUM.

will eventually house the many patients now on the "waiting list."

Six of the cottages near the main building were erected last year by Contractor C. B. Rowley, of this city. Two large cottages were built several years ago by Parker Waite, formerly of Brainerd, and now a resident of Pillager.

In speaking about the article in "The Farmer," its editor, D. A. Wallace said: "It was written at our suggestion by a young man living in St. Paul, who was formerly a patient at Walker, but who, for obvious reasons, did not wish his name used. It was a little out of our line but we thought it might do some good in an educational way."

"A neglected cold and being 'run down' from overwork brought on my case of tuberculosis. When I was told that I had tubercular trouble, I thought that was the last of me, as I had never been sick before and didn't know anything about the disease. My doctor advised me to go to the state sanatorium and he sent in my application. After waiting three weeks for a vacancy, I received a letter from Dr. Marley, who is in charge there, to come.

"I left on a Monday at 8:20 a. m., and arrived at the sanatorium station at 4:30 p. m. The station, a

who cannot afford to pay, the counties of which they are residents pay the charges. The one dollar pays for treatment, board and laundry and all patients are treated alike. Tuberculin, the preparation used by most doctors as an aid to a cure, is given to anyone desiring it, but is not compulsory.

"The most important part of the treatment is the compliance with the rules, which are strictly enforced. The rules are absolutely necessary and no hardships are suffered by obeying same, and patients being there for their own benefit, should have no hesitancy in complying therewith. A few of the rules are:

"Patients are expected to co-operate with the physician in every way in order to get well. They should report to him promptly any new symptoms which arise, or old ones which appear again. Exercise should never be taken if it tires the patient, or if there is fever. Regular daily work about the institution will be prescribed for exercise, and is to be accepted as a part of the medical treatment. If a patient becomes sufficiently ill during the day to go to bed, he should at once send word to the nurse of the doctor, so that necessary treatment may be given him.

"Patients must spend as much time

Patients are required to rest after the mid-day meal for a length of time to be determined by the physician, called 'the quiet period.' During this time patients are not allowed to read, write, talk, do needlework, or anything but rest.

"The use of tobacco is not allowed, except by permission. The smoking of cigarettes is prohibited. Patients are not allowed to smoke in any of the buildings or on any of the verandas. Any patient who is allowed to use tobacco, should carefully observe the rule regarding spitting.

"The daily routine is often relieved by launch excursions on Leech lake, swimming, rowing, fishing, various outdoor games, pleasant country walks and occasionally a drive to Walker on shopping expeditions. Of course, this is all done directly under the supervision of the doctor and his assistants, and with their consent. On Sunday home service is held, being led by one or two of the patients, who conduct the service for that day. Those of the Catholic faith have separate services of their own.

"During my three months' stay there I was greatly benefited and cannot speak too highly of the care, attention and treatment I received from Dr. Marley and others connected with the institution. I would have

"MICHAEL'S"

BIG N. Y. BANK IS CLOSED

Special to The Dispatch:—

New York, Jan. 7, 1911.—The Carnegie Trust Co., one of the biggest financial institutions in New York, was closed today by the state superintendent of banks, Cheney.

The company was chartered in 1907 and had a paid up capital of \$1,500,000; surplus and undivided profits of \$737,000, and gross deposits of about \$8,900,000. J. B. Reichman was president of the institution.

any kind, is the beginning of a large percentage of tubercular cases.

"Prevention is better than cure," and if people would learn to keep well, rather than make well, the world would be better off. We cannot get too much fresh air and sunshine, and this, together with good food, especially fresh eggs and milk, should be taken by all, as T. B. like all diseases, can be more readily thrown off if the system is otherwise in a healthy condition.—"An Expert."

AT THE NEW POWER HOUSE

Ritari Bros. Work Described at The Toltz Engineering Co's. Power House

Ritari Bros. are making good progress in their cement and concrete work at the new power house. The foundations have been completed for the fly wheels, one of which is 22 feet and the other 20 feet in size. The engines will be placed in the south end of the building and the dynamos will be grouped in the west end.

In one hour and fifteen minutes Ritari Bros. laid 38 cubic yards of cement. Thirty-two men are at work. Among the new work commenced is the grading of a side track to run through the east end of the building. Every bit of this had to be excavated with a pick as the ground is frozen. A shed 20x40 feet in size has been constructed at the southeast corner of the building and the foundations for coal bunkers are being put in here. Over 2,280 sacks of cement have been used on the job to date. Max Toltz, president of the Toltz Engineering Co., is well satisfied with the progress made by Ritari Bros.

MUSIC AND DRAMA

At The Grand

At last night's performance of the Grand two numbers were heard at the nine o'clock show. Eddie Boyle, of Jamestown, N. D., visiting in the city, favored the audience with two selections and his singing reveals a voice of good quality. The Imperial Quartette sang two songs and were much applauded. The members of the quartette are, John E. Istenor; Albert Swanson, second tenor; Alfred Mraz, first bass; Robert Crust, second bass. Miss Baybel Smythe was their accompanist. The first song was the "Bill of Fare," and the second, "On Board the Mary Jane."

40 men wanted at once at Pequot to cut lath bolts and logs. Geo. McKinley. 181-12tp.

FARMERS TOWNSHIP MUTUAL

Of Klondike, Crow Wing County, Elects Officers and Issues Statement for Year

The Farmers Township Mutual Insurance company, of Klondike, at their annual meeting on January 3d at Deerwood, elected the following officers for 1911:

President—A. W. Nelson, Deerwood. Vice President—Frank L. Kenny, Aitkin. Treasurer—Frank V. Berglund, Deerwood.

Secretary—F. J. Winquist, Deerwood. Directors—John Franz, Aitkin; Gust Olander, Deerwood; Algot Williams, Glen. The company has 468 policies, representing an insurance of \$490,343.75 in force at the close of business Dec. 31st, 1910.

The financial statement shows a balance of \$494, with the receipts for the year as \$1,815.36 and the disbursements \$1,613.54, which includes a cash balance from 1909 of \$292.18.

MAIL BOXES IN POSITION

Boxes For the Reception of Mail Will be Placed in Position on Sunday at N. P. Station

COLLECTION BY MAIL CLERKS

City Carriers Will Not Collect From These Boxes—The Convenience Should Not be Abused

Boxes for the use of the public will be placed at the Northern Pacific station on Sunday for the reception of mail which will be collected by mail clerks on all mail trains on and after that date. The box for mail going west will be located on the pole at the east of the watchman's shanty and the one for mail going north, east and south will be found near the east end of the station platform.

After the departure of the mail trains for the east and south in the afternoon all mail for the twin cities and all points except those on the M. & I. line north should be deposited in the box labeled "west" in order to get the best service as the clerk on the mail train at midnight from Duluth, collects from that box and connects the mail at Staples for the points east and south.

On Sundays, mail deposited in the "west" box up to the time of the arrival of the mail train from Duluth at 12:01, will be collected and dispatched for any direction as there is no Sunday mail service south on that day. The box at the east end of the station will have to be opened by the mail clerks and the mail sorted by them and that not going to their line returned.

These boxes are for the convenience of the public and that convenience should not be abused. Letters that can be mailed at the post-office or in the street letter boxes in time to catch the mail train for which they are intended should be so treated, as mail placed in the boxes at the depot platform will not be collected by the city letter carriers and will be opened only by the railway mail clerks.

BENEFITED BY THE BATHS

Mr. and Mrs. R. R. Wise Return From The Baths at Mudcura, Near Shakopee

Mr. and Mrs. R. R. Wise have returned from the baths at Mudcura, near Shakopee, much benefited in health. Mr. Wise said he was most happily surprised to find springs of such curative power in our own state. At the commencement of his trip he intended to go to Mt. Clemans, Mich., but a friend urged him to try the new springs.

He described in detail their manner of packing one in the mud up to the eyes, then the massage in hot water of 100 degrees heat; then the cooling room with a temperature of 85 degrees, and another massage by Harry Hanson.

The place is in charge of Dr. Henry Fischer and under his able management, is developing into a most successful institution for the cure of rheumatism and kindred diseases. It is situated in the beautiful valley of Shakopee and is only 25 miles distant from the twin cities. The waters are strongly impregnated with sulphur and iron. To complete the cure one also drinks the water from certain springs. Each patient is supplied with his individual drinking cup, thoroughly sterilized.

The building is of brick, two stories in height and heated with steam. It is frequented by people who wish a cure and who do not desire any of the social gaiety which is made a feature at other baths. Patients come to be cured, not to be amused. Many remarkable cures have been effected, especially among rheumatic patients. Mr. Wise was greatly benefited by his sojourn at the institution.

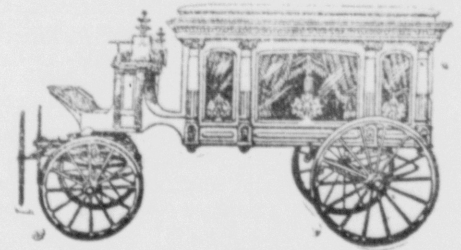

S. U. S. of American Bernadotte Lodge, No. 34, of the Swedish United Sons of America, elected the following officers for the ensuing year:

President—E. O. Anderson. Vice President—Aaron Johnson. Secretary—G. S. Swanson. Treasurer—John Headman. Chaplain—A. F. Halberg. Auditor—Ole Benson. Marshall—Ellis Erickson. Vice Marshall—Erick Olson. Inner Guard—Dan Lind. Trustee—August Lind.

TO CURE A COLD IN ONE DAY Take LAXATIVE BROMO Quinine Tablets. Druggists refund money if it fails to cure. E. W. GROVES' signature is on each box. 25c. tts

JOINT INSTALLATION

Red Men and Degree of Pocahontas Have Joint Installation Ceremonies Friday Night

The joint installation of Red Cloud Tribe No. 13, and Iowa Council No. 15, Degree of Pocahontas, took place Friday evening, Jan. 6, in Elks Hall. Geo. Sargent did the work of installing Iowa Council and James Cullen did the same for Red Cloud Tribe.

After the installation of Iowa Council Mrs. C. F. Beugnot was presented with a beautiful hand bag from the Council for her efficient work as Pocahontas for the past fifteen months, the presentation speech being made by Geo. Sargent and responded to by Mrs. Beugnot, thanking the Council. After the installation a nice lunch was served and dancing indulged in until about 2 a. m., all going home after enjoying a most delightful evening.

The officers for the ensuing year are as follows:

Pocahontas—Mrs. Geo. Weaver. Prophetess—Mrs. C. F. Beugnot. Wenonah—Mrs. Otto Reinhardt. Powhatan—Geo. Sargent. K. of R.—Mrs. Susan Whitford. K. of W.—Mrs. J. W. Stearns. Trustee, 3 yrs.—S. J. Greer. Guard of Tepee—A. P. Nordstrom. Guard of Forest—Louis Molomen. First Scout—Mrs. Louise Woerner. Second Scout—Mrs. M. Johnson. First Counsellor—Mrs. Lewis Sandberg. Second Counsellor—Mrs. M. M. Boyd.

First Runner—Mrs. Carrie Giles. Second Runner—Mrs. Elta Greer. First Warrior—Mrs. Annie Knutzen. Second Warrior—Mrs. Mary Albers. Third Warrior—Mrs. Mary Lyonais. Fourth Warrior—Mrs. Esther Davis.

The officers of Red Cloud Tribe, No. 13, for the ensuing year are:

Sachem—O. A. Peterson. Senior Sagamore—C. F. Beugnot. Junior Sagamore—S. J. Greer. Prophet—Geo. Weaver. C. of R.—Geo. Sargent. K. of W.—D. M. Clark. Trustee, 3 yrs.—J. J. Johnson. First Sanep—A. P. Nordstrom. Second Sanep—J. W. Stearns. G. of W.—A. B. Anderson. G. of F.—Lewis Lee. First Warrior—E. A. Luck.

Second Warrior—J. J. Johnson. Third Warrior—Louis Molamen. Fourth Warrior—Jacob Hass. First Brave—Anton Temple. Second Brave—Ed. Stallman. Third Brave—G. D. Weber. Fourth Brave—J. H. Weber.

Carpenters' Union Election

The election and installation of officers of Local No. 951, of the United Brotherhood of Carpenters and Joiners of America was held on Thursday night. The officers are: President—J. W. Welch. Vice President—James J. Christensen.

Recording Sec.—Andrew Johnson. Financial Sec.—M. E. Morrison. Treasurer—Wilmer Holmes. Conductor—M. Woodley. Warden—P. J. Kiley. Trustee—W. W. Winters. Delegate to Trades and Labor Assembly—James J. Christensen. Sick Committee—M. Woodley and J. Laplant.

To The Ladies of Brainerd

I will be in Brainerd about the 8th of January and anyone wishing to order corsets will please call on me or drop me a line. I will be glad to call and let you see samples.

ONE OF THE LARGE COTTAGES FOR TUBERCULAR PATIENTS.

pretty log building, is at the end of the trestle which crosses Leech lake. The sanatorium "automobile"—consisting of a pair of horses hitched to a farmer's wagon—drove us to the sanatorium, which is about one-half mile from the station. I had started the simple life.

"The sanatorium is situated on a high elevation about three miles from Walker, Minn., surrounded by pines and birches and overlooking the beautifully wooded Leech lake, that is estimated at having 600 miles of lake shore, an ideal spot for an institution of that sort. The sanatorium consists of a main building, housing 30 patients, and four cottages containing 14 patients each, making a total of 86 patients who can be treated.

"Upon entering the reception room you are met by the doctors or the nurses, and are then given a sputum cup, a neat receptacle in which all sputum must be deposited in order to be burned up. A locker for your clothes is assigned. You are shown your bed and everything is in readiness for one to tackle the "T. B." bug.

"Temperature and pulse of each patient are taken four times a day for the first week; after that you are

as possible out of doors. Loitering indoors, in the locker rooms and bath rooms, is not allowed. The patient should realize the importance of having plenty of fresh air all the time, and do his best to acquire early the "outdoor habit."

"As food forms an important part of the treatment, patients are required to be prompt at meals and lunches, and will not be allowed to absent themselves from any meals or lunches unless excused by the physician or the nurse. Eating between meals and lunches is not allowed. This rule applies to fruit and nuts, as well as candy. Patients are expected to eat slowly, chewing the food well and oftentimes to take food as a duty even when there is no desire to eat.

"Patients are forbidden the use of alcoholic stimulants unless especially prescribed by the physician. Patients will not be permitted to have alcoholic stimulants sent to them or to keep the same at the institution. This rule includes all kinds of liquors, (beer, ale, hard cider, sherry, etc., as well as the stronger alcoholic beverages) and applies to any patient of the institution on the sanatorium grounds or elsewhere.

"Patients are required to use for

no hesitation in recommending any one afflicted with the disease to take a course of treatment there, but, of course, only incipient or curable cases are admitted.

"It is astonishing to know that since the sanatorium was opened in December, 1908, 530 cases have been admitted. The call on the institution is so great that they always have a waiting list.

"Even now it is a pleasure to correspond with the Doctor, who is very glad to hear from his former patients. Although it is nice to get home again, I will always have pleasant memories and best wishes for the state sanatorium.

"It is estimated that 95 per cent of all the people of the world have some form of tuberculosis at some time during their lives. Some get over it without knowing they had it, while others take the cure in time to check it.

"Keep your windows open; don't be afraid of the cold or fresh air. Dress according to the weather. If possible, have a warm room in which you can dress and undress, so as not to catch cold. A common neglected cold, combined with a weak system run down from over-study or work of

LOCAL NEWS NOTES

(Continued from page 2)

Andrew Mack, of Baxter and residing near White Sand lake, was in the city yesterday with the pelt of a female wolf. He called at the auditor's office for the bounty.

A party was given by the Misses Gustafson, of 421 South Sixth street, last evening. About 25 young people were present and a most enjoyable evening was spent.

C. W. LaDu left this afternoon for Minneapolis. He is now the junior partner of the firm of Healey, White and LaDu, of that city, and his many Brainerd friends wish him much success.

Mrs. Peterson, of 623 Pine street, entertained at dinner on Thursday evening in honor of her daughter, Mrs. R. H. Rehl, of Minneapolis. The rooms were handsomely decorated in evergreens and carnations. Covers were laid for twelve. The were favored by a song by E. H. Lawton and a piano solo by P. H. Weibacher.

Miss Jennie Horner entertained the members of the Christian Endeavor society at her home last evening. A dainty oyster supper was served by the hostess. During the evening plans were formulated for giving a concert at the Presbyterian church in the near future and the committee may decide to engage a singer from the twin cities as one.

Miss Maud Mills, of Merrifield, visited in the city today.

Messrs. Laymon and J. D. Schmit, of Minneapolis, have taken a three year lease of the Unique theatre and will remodel and improve it. Opera

chairs have been ordered which will be here early next week. An "I beam" is to be put over the entrance and an arch will be built, giving the theater a much improved appearance. Work will soon be commenced on the inclined floor. C. B. Rowley has the contract for the alterations.

Notice

All members of the Knights of Columbus and candidates are requested to meet at the hall tomorrow morning at 8 o'clock for the purpose of attending Mass in a body.

FRITZ KOOP,
186-11
Grand Knight.

North Star Society

The North Star society elected the following officers for the ensuing year:

President—Erick Westerberg.
Vice President—A. J. Ellison.
Secretary—John Holvick.
Treasurer—Mons Mahlum.
M. of C.—A. B. Anderson.
Trustee for three years—A. F. Halberg.

The Bad Part.

"I dreamed last night that I was married," said the maid as she sat down to breakfast the other morning "is that a bad dream?"

"The only thing bad about it," growled her father, "is that it isn't true."

England's "Regicides."

"Regicides" in English history are the commissioners appointed to try King Charles I., 150 in number, of whom seventy acted and fifty-nine signed the death warrant January, 1649. Of these last twenty-nine were tried and ten executed.

Old Colds Do not know what to take? Then why not find out? Your doctor knows. Leave it all to him. If he says, "Ayer's Cherry Pectoral," then take it. If he says something else, take that. Do as he says.

J. C. Ayer Co., Lowell, Mass.

FOR A BAD STOMACH

Heartburn, Indigestion, Gas or Dyspepsia go Five Minutes After Taking Diapiesin

Why not get some now—this moment, and forever rid yourself of stomach trouble and indigestion? A dieted stomach gets the blues and grumbles. Give it a good eat, then take Pape's Diapiesin to start the digestive juices working. There will be no dyspepsia or belching of Gas or eruptions of undigested food; no feeling like a lump of lead in the stomach or heartburn, sick headache and dizziness, and your food will not ferment and poison your breath with nauseous odors.

Pape's Diapiesin costs only 50c for a large case at any drug store here, and will relieve the most obstinate case of indigestion and upset stomach in five minutes.

There is nothing else better to take gas from stomach and cleanse the stomach and intestines, and, besides, one single dose will digest and prepare for assimilation into the blood all your food the same as a sound, healthy stomach would do it.

When Diapiesin works, your stomach rests—gets itself in order, cleans up—and then you feel like eating when you come to the table, and what you eat will do you good.

Absolute relief from all stomach misery is waiting for you as soon as you decide to take a little Diapiesin. Tell your druggist that you want Pape's Diapiesin, because you want to become thoroughly cured this time.

Remember, if your stomach feels out of order and uncomfortable now, you can get relief in five minutes.

A River in Brazil.

The state of Sao Paulo, in the republic of Brazil, has a river that carries one of the longest names of any stream in the world. The name is of Indian origin and is "Tamanduetely" and is also called without saving anything in length "river of the Great Tanager."

Looking Backward.

"Boss, I can't live on \$2 a week any longer."

"Stick it out for awhile," urged his thrifty employer. "Think of how you can brag about it when you've made your fortune, my lad."—Louisville Courier-Journal.

Money to Burn.

"Hear about old man Foddershucks? He went ter 'th' city an' come back with money to burn."

"Ye don't say?"

"Yep. Bought a thousand dollars' worth for a ten dollar bill."—Cleveland Leader.

LIFE IN SANTIAGO.

Curious Customs That Prevail In the Capital of Chile.

They have women conductors on the electric cars of Santiago, the capital of Chile. This was made necessary by a war, which took so many men to the front and imposed upon women the work usually done by men. The custom has been kept up, the women having proved equally as efficient as the men had been.

One of the most peculiar customs seen here is the evening promenade in the plaza or park, which is attended by young ladies and young men and quite small boys and girls. They do not mix, but keep quite separate paths. Yet even the little girls at seven or eight years are finished coquettes. Their eyes languidly observe every man and boy in the plaza, and they take care that each shall receive a due share of their smiles.

Another curious custom which prevails in Santiago and which is joined by those fortunate enough to have fine horses and carriages is the promenade at the Parque Cousino, a beautiful park near the center of the city.

A company of mounted police stands in single file in the center of the drive, and the carriages, with uniformed coachmen and footmen and beautifully gowned women and fashionably dressed men occupying the carriages, ride around and around these mounted police.

Sometimes there are two or as many as six rows of carriages, some going in the opposite direction and alternating, the ladies smiling and the gentlemen tipping their hats in a polite manner. This promenade lasts from 5 o'clock in the afternoon until 8 o'clock in the evening.—Logical Point.

The Way to Find Him.

"My wife and I are going to spend a few months with her people at Strong's Corners," said the meek little man, "and I want you to mail your paper to me."

"Yes," said the clerk. "What's your name?"

"Well—er—to make sure, I guess you'd better address it, 'Mary Strong's Husband, Strong's Corners.'—Catholic Standard and Times.

Her Little Joke.

"Mrs. Pufferly is tickled to death with the way she fooled the customs inspectors."

"How did she do it?"

"She didn't buy a thing abroad."—Cleveland Plain Dealer.

Her Handwriting.

"Is your wife economizing?"

"I think so. She now writes eight words on a page of letter paper instead of only six."—Washington Star.

Startling Results Obtained by Senpina

New York—Thousands are taking advantage of the generous offer made by The Woodworth Co., 1161 Broadway, New York City, requesting an experimental package of Senpina, the great discovery for Asthma, Hay Fever, Bronchitis, and Catarrh, which is mailed free of charge to all who write for it. It is curing thousands of the most stubborn cases. It makes no difference how long you have been suffering or how severe the climatic conditions are where you live, Senpina will cure you.

If you have experimented with other treatments and have failed to find a cure do not be discouraged but send for a trial of this wonderful truly meritorious remedy which is a scientific compound discovered by a professor of Vienna University, and is being recommended by thousands.

EARLE INSTITUTE
MINNEAPOLIS, MINN.

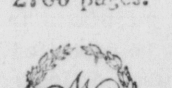

JUST PUBLISHED

Webster's NEW INTERNATIONAL Dictionary, C. & C. Merriam Co., Springfield, Mass., surpasses the old International as much as that book exceeded its predecessor. On the old foundation a new superstructure has been built. The reconstruction has been carried on through many years by a large force of trained workers, under the supervision of Dr. W. T. Harris, former United States Commissioner of Education, and reinforced by many eminent specialists. The definitions have been rearranged and amplified. The number of terms defined has been more than doubled. The etymology, synonyms, pronunciation, have received unsparing scholarly labor. The language of English literature for over seven centuries, the terminology of the arts and sciences, and the every-day speech of street, shop, and household, are presented with fullness and clearness. In size of vocabulary, in richness of general information, and in convenience of consultation, the book sets a new mark in lexicography.

400,000 words and phrases.

6000 illustrations.

2700 pages.

Write to the publishers for Specimen Pages.
